“how”

# Three Principles of Universal Design for Learning

# Assessment Principle

## **Provide options for executive function**

- Guide appropriate goal-setting
- Support planning and strategy development
- Enhance capacity for monitoring progress

## **Provide options for expression and communication**

- Use multiple media for communication
- Use multiple tools for construction and composition
- Build influences with graduated levels of support for practice and performance

## **Provide options for physical action**

- Vary the methods for response and navigation
- Optimize access to tools and assistive technologies

**Strategic**

“how”

## **Assessment Principle Guideline: Provide Options for Executive Functions**

- Focus on skills students need to become strategic, goal-directed learners
- The stronger students become in the skills of this guideline, the more successful they are likely to be postsecondary
- Help students learn to monitor their own progress

*Universal Design for Learning in the Classroom* (Hall, Meyer & Rose, 2012)  
*Design and Deliver* (Loui Lord Nelson, 2014)

# Assessment Principle

## Guidelines and Checkpoints

Provide Multiple Means of Action and Expression	Resource	Description
Provide options for executive functions		
Guide appropriate goal-setting		Templates for goal-setting worksheets can organize and guide students' personal goal setting
Support planning and strategy development		Allows users to enter assignment due dates and will send email reminders. Also provides scaffolding for various types of assignments such as outlining main points, creating a bibliography, etc.
Facilitate managing information and resources		Graphic organizers are effective tools to manage information and resources. These supports help students to organize their thoughts and establish relationships between ideas.
Enhance capacity for monitoring progress		Variety of writing and editing checklists to help students learn to monitor their work and the work of peers.

# Assessment Principle

## Guideline:

### Provide options for expression and communication

- Focus on how students express themselves
- Consider all of the ways students can communicate
- Provide models of skilled performance, scaffolding, and time for practice
- Building fluency in a skill is essential

*Universal Design for Learning in the Classroom* (Hall, Meyer & Rose, 2012)  
*Design and Deliver* (Loui Lord Nelson, 2014)

# Assessment Principle

## Guidelines and Checkpoints

Provide Multiple Means of Action and Expression	Resource	Description									
Provide options for expression and communication											
Use multiple media for communication		iCreate to Educate uses stop-motion animation as a learning tool and provides options in the media for communication.									
Use multiple tools for construction and composition		Glogster allows you to create "interactive posters" to communicate ideas. Students can embedded media links, sound, and video, and then share their posters with friends.									
Build fluencies with graduated levels of support for practice and performance	<div>Results by reading level for search by reading level:</div> <table><tr><td>Basic</td><td>26%</td><td><div></div></td></tr><tr><td>Intermediate</td><td>39%</td><td><div></div></td></tr><tr><td>Advanced</td><td>36%</td><td><div></div></td></tr></table>	Basic	26%	<div></div>	Intermediate	39%	<div></div>	Advanced	36%	<div></div>	Use Google to search by Basic, Intermediate or Advanced reading levels
Basic	26%	<div></div>									
Intermediate	39%	<div></div>									
Advanced	36%	<div></div>									

# Stegosaurus Poster

# Stegosaurus Poster

## Stegosaurus

### *Fast Facts*

- Lived in the late Jurassic Period
- Had 17 plates on their backs

Stegosaurus was one of the dinosaurs that inspired the appearance for Godzilla

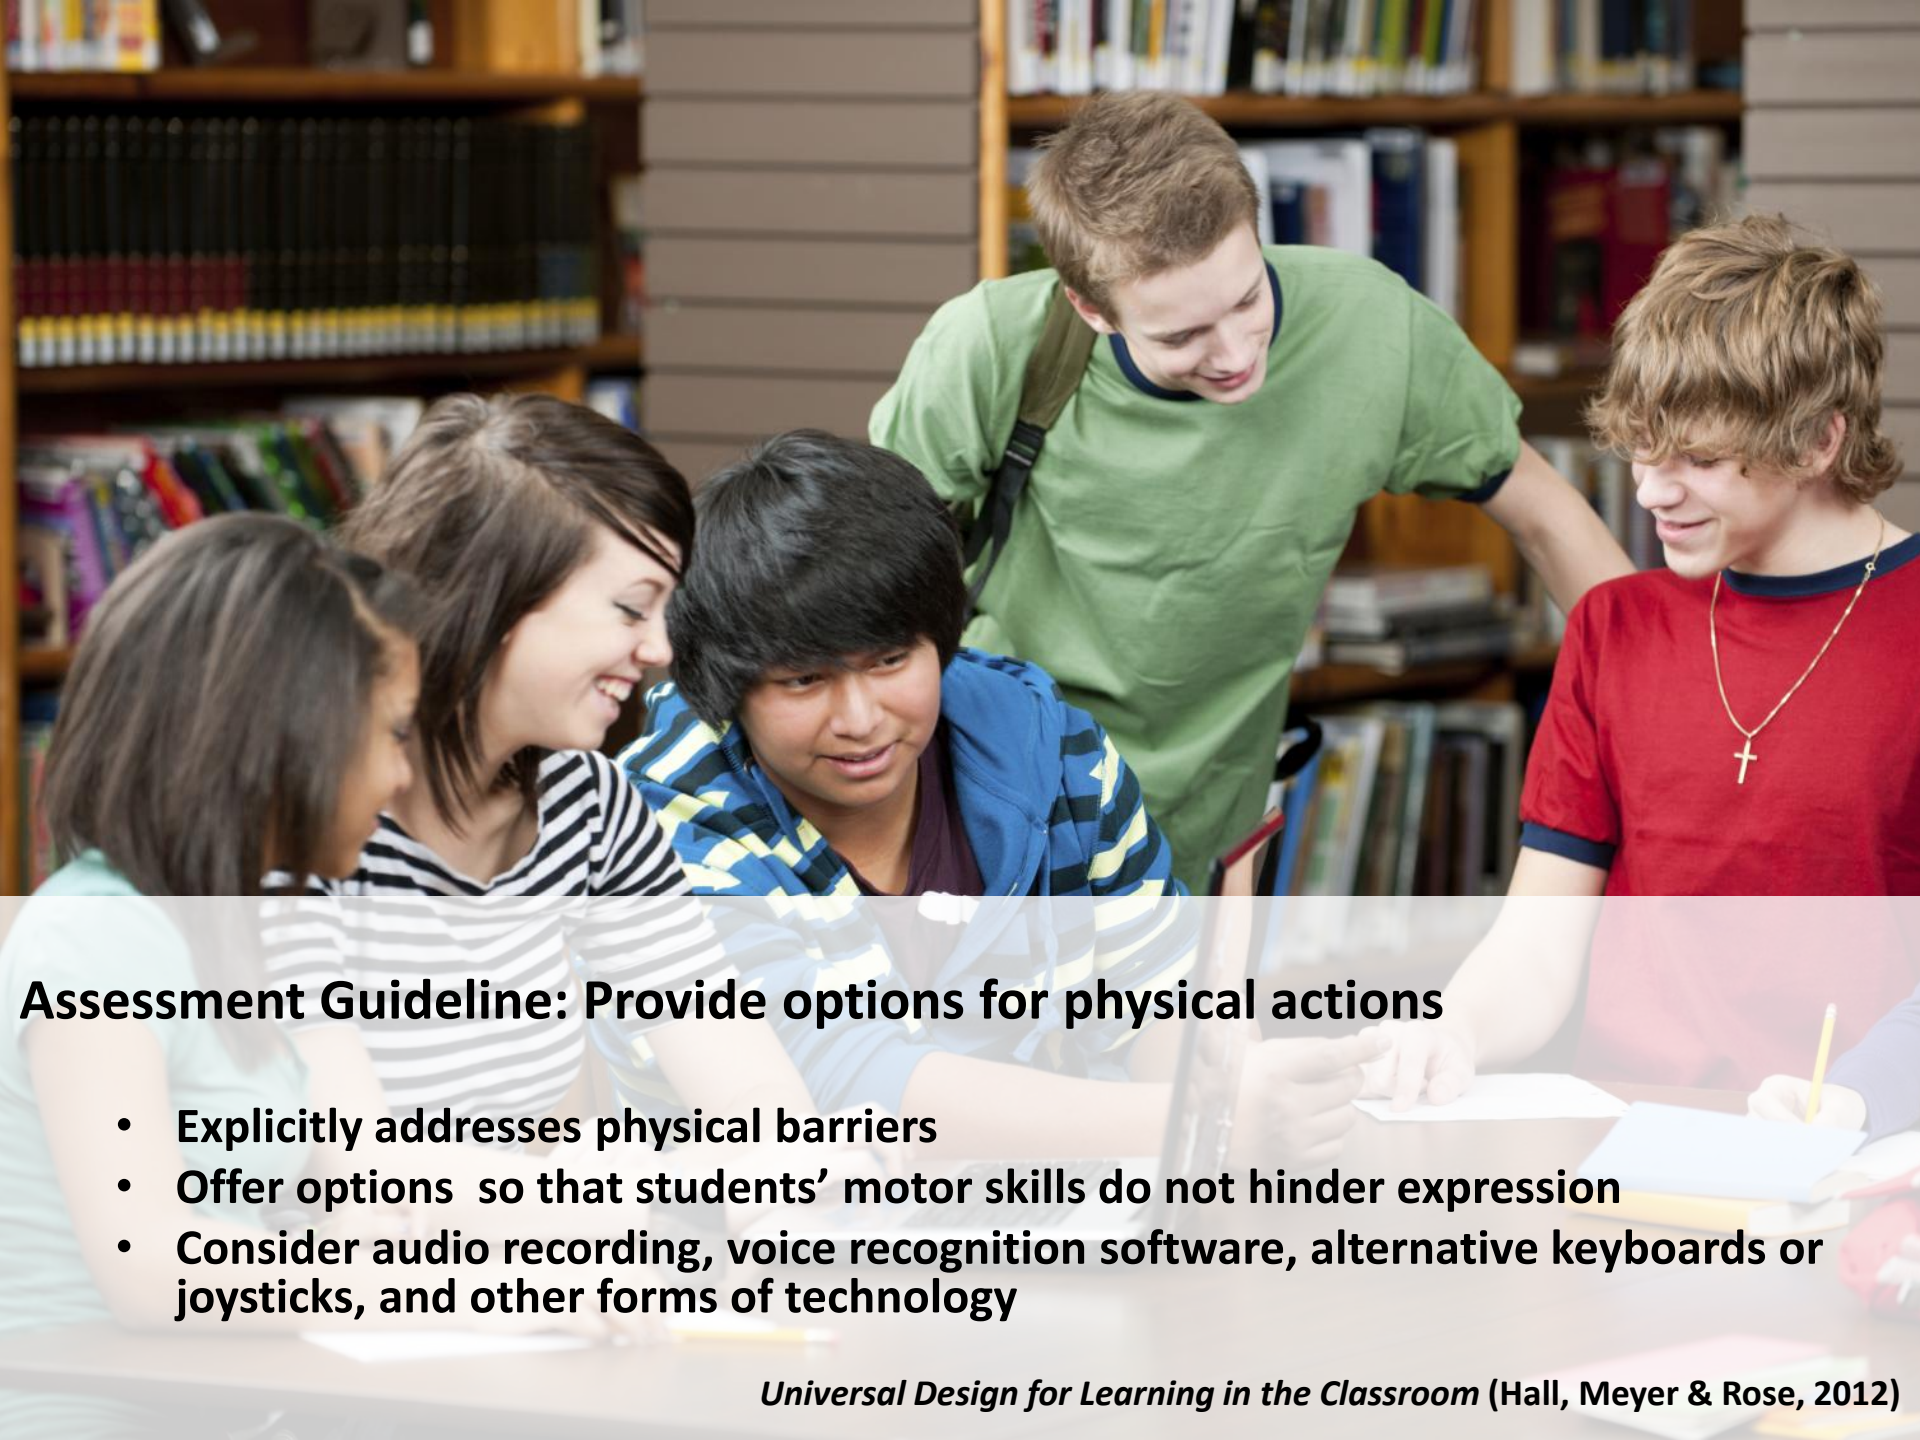

*This is what Stegosaurus looked like*

*No one knows why Stegosaurus had plates...*

*or exactly how these plates were arranged along its back?*

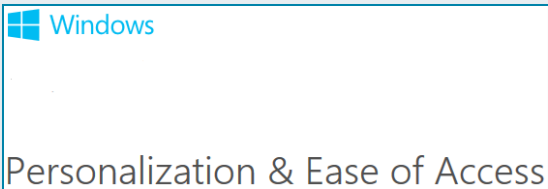

**Assessment Guideline: Provide options for physical actions**

- Explicitly addresses physical barriers
- Offer options so that students' motor skills do not hinder expression
- Consider audio recording, voice recognition software, alternative keyboards or joysticks, and other forms of technology

# Assessment Principle

## Guidelines and Checkpoints

Provide Multiple Means of Action and Expression	Resource	Description
Provide options for physical action		
Vary the methods for response and navigation	 <p>Windows Personalization &amp; Ease of Access</p>	Free accessibility and personalization options that are built into frequently used Microsoft applications
Optimize access to tools and assistive technologies	 <p>VOICENOTE for use with Google Chrome™</p>	Simple and functional note pad that allows you to type with your voice

Many  
teachers  
already have  
great options  
to assess  
learners!

# Reflection

- Take one minute and reflect on options for assessment in your district
  - Options:
    - Write out your thoughts
    - Draw an image that represents this
    - Share your thoughts aloud with a peer
    - Create your own option for reflection

# State Assessments

- New state assessments are promising they are being developed with principles of Universal Design for Learning

## Universal Tools

### Embedded

Breaks, Calculator, Digital Notepad, English Dictionary, English Glossary, Expandable Passages, Global Notes, Highlighter, Keyboard Navigation, Mark for Review, Math Tools, Spell Check, Strikethrough, Writing Tools, Zoom

### Non-embedded

Breaks, English Dictionary, Scratch Paper, Thesaurus

## Designated Supports

### Embedded

Color Contrast, Masking, Text-to-speech, Translated Test Directions, Translations (Glossary), Translations (Stacked), Turn off Any Universal Tools

### Non-embedded

Bilingual Dictionary, Color Contrast, Color Overlay, Magnification, Read Aloud, Scribe, Separate Setting, Translation (Glossary)  
Separate Setting, Translation (Glossary)

## Accommodations

### Embedded

American Sign Language, Braille, Closed Captioning, Text-to-speech

### Non-embedded

Abacus, Alternate Response Options, Calculator, Multiplication Table, Print on Demand, Read Aloud, Scribe, Speech-to-text

# Accommodations for State Assessments

The screenshot shows the Wisconsin Department of Public Instruction website. The header features the department's logo and name. A navigation bar includes links for Home, Parents & Students, Schools & Educators, Libraries, and Data & Media, along with a search box. The main content area is titled "Assessment Accommodations and Supports" and contains a paragraph explaining that accommodations are practices to provide equitable access to grade-level content, intended to reduce or eliminate the effects of a student's disability or language acquisition level. Below this text is a grid of eight green buttons, each linking to a specific accommodation category: WKCE, WAA-SwD, Smarter, DLM, ELLs, PALS, NAEP, and ACT High School. On the left side, there is a sidebar with the OSA (Office of Student Assessment) logo and a list of links including "Assessment and Accountability Home Page", "Accountability", "Assessment", "District Assessment Coordinator (DAC) Corner", and "More Options" which includes links to newsletters, FAQs, and staff directories.

**WISCONSIN DEPARTMENT OF PUBLIC INSTRUCTION**

**Assessment Accommodations and Supports**

Accommodations are practices and procedures that provide equitable access to grade-level content. Accommodations are intended to reduce or eliminate the effects of a student's disability or level of language acquisition; they do not reduce learning expectations. The accommodations provided to a student must be consistent for classroom instruction, classroom assessments, and district and state assessments. It is critical to note, that each assessment may have unique accommodation policies, therefore Educators should pay careful attention to assessment policies and what the assessment is trying to measure. Furthermore, although some accommodations may be appropriate for instructional use, they may not be appropriate for use on a standardized assessment.

**Accommodations and Supports for WKCE**

**Accommodations and Support for WAA-SwD**

**Accommodations and Support for Smarter**

**Accommodations and Supports for DLM**

# 3 Teaching and Learning Tools:

## 1. Curriculum

Does your curriculum have built-in options for ALL students?

## 2. Instruction

Do your instructional practices encompass a variety of materials and methods?

## 3. Assessment

Do your current assessment practices offer multiple ways for students to display what they've learned?

# Balanced Assessment

*Refers to the use of using formative, benchmark and summative assessments to provide a complete and clear picture of student progress, student achievement, and instructional effectiveness*

*(WI RtI Center Glossary)*

## Foundational Assumption

An effective assessment system has **multiple** components and balances strategies that meet varied purposes and stakeholder needs. One assessment cannot meet all purposes.

Recommendations of the  
Next Generation Assessment Task Force

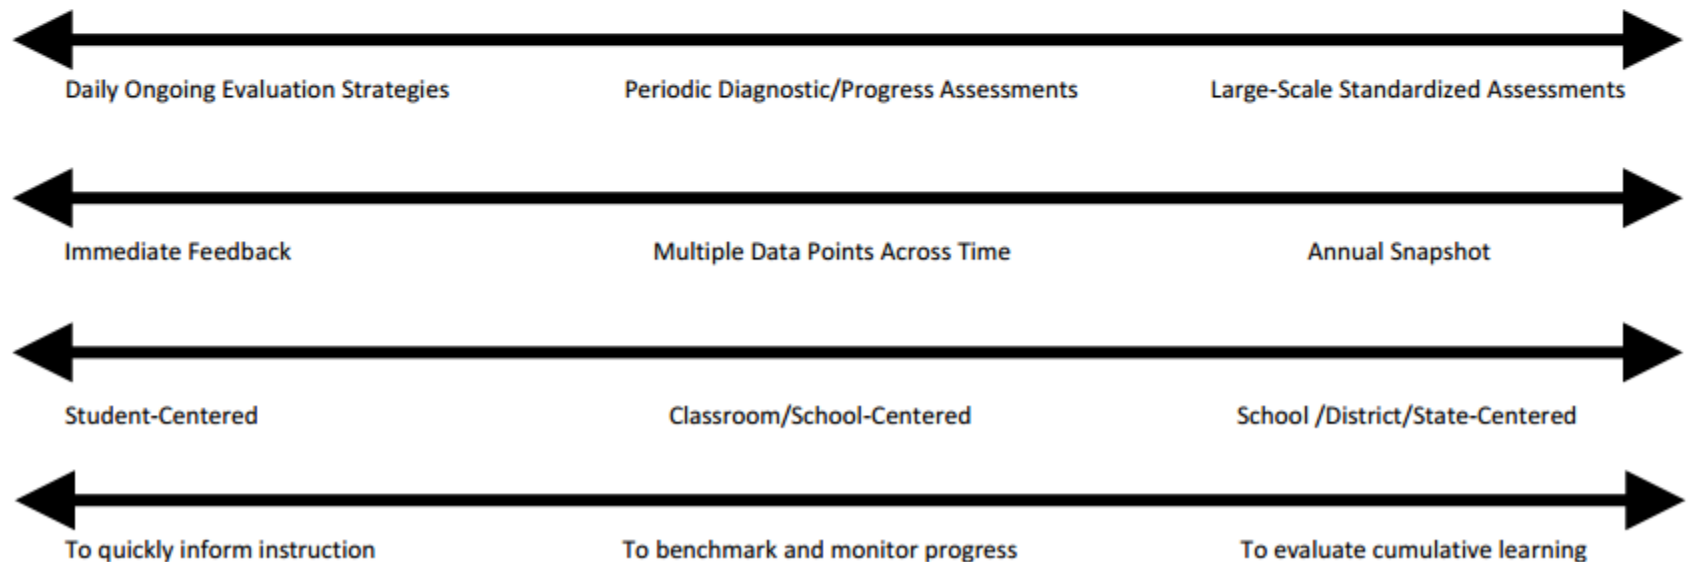

---

CRAFTING A BALANCED  
SYSTEM OF ASSESSMENT  
IN WISCONSIN

---

# Balanced Assessment System

By Type

# Balanced Assessment System

## By Purpose

	To plan learning (prior to instruction)	To support learning (during instruction)	To monitor learning (between instruction)	To verify learning (after instruction)
<b>Formative Data</b> <i>to quickly inform instruction</i>	Student learning goals, or student self-assessment	Feedback that informs both student and teacher in order to make real-time adjustments to teaching and learning	Feedback that allows teacher to see what progress has been made since last check-in	Feedback that confirms what the student knows and can do
Examples:	-Teacher/Student discussion -First day observations	- Teacher/Student portfolio -Class blog; student journal	-Open questioning -Running records	-Exit activities -Portfolios
<b>Benchmark Data</b> <i>to benchmark and monitor progress</i>	Data that shows a teacher the instructional starting point for a chapter, unit, semester, or year	Data that shows teacher what learning objectives have been mastered; what needs to be addressed next instructionally for individual students	Data that tracks student progress over time, providing periodic and multiple data points against benchmarks throughout the year. Can be used to promote program improvement in the short-term; instructional change; monitor student progress	Data that is used, along with other data points, to establish a grade or score. Can be used to make decisions about instruction, curriculum, and to make program adjustments
Examples:	-Screener -Chapter pre-tests	-Graded class work -Curriculum based measures (CBM) -Running records	-Portfolios -Office discipline referrals -Curriculum based measures (CBM)	-Progress report -Interim assessment (post-test)
<b>Summative Data</b> <i>to evaluate cumulative learning</i>	Data that aids teacher in planning future instruction; reflecting on general patterns; or establishing the big picture within a class of students	Data that informs classroom decisions such as groupings, alterations to curriculum maps, etc.	Data provides a snapshot (one point in time) of what students know and can do. Can be used to promote program improvement, curricular changes, instructional PD needs at school or classroom level	Standardized data is used to make decisions, typically on annual basis, at macro levels, about subgroups, schools, districts, states
Examples:	-Prior year's AP Exams -Prior end of year scores	-Item analysis of prior summative test -End of unit assessments/grades	-Benchmark test scores -End of semester grades	- AYP reports -Suspension rates

Please note: the examples are not an exhaustive list; also examples serve multiple purposes, not just those indicated in the above boxes.

# Balanced Assessment System

## Purpose

Provide stakeholders with data about academic achievement

- and -

Assist in improving the educational process to increase student achievement

# 5 Keys to Quality Classroom Assessment

1. Clear purpose
  - Why assess? Who will see results? What function does it serve?
2. Clear targets or outcomes
  - What is to be assessed? Do students understand targets? Clear? Measureable?
3. Sound design
  - What methods? Written well? Sampled how?
4. Effective communication
  - Report, communicate how?
5. Student involvement
  - Understand target, track progress, self-assess

# How do we use Assessment AND Results to Help our Students Want to Learn?

1. Student-friendly targets from the beginning
2. Models of strong and weak
3. Continuous descriptive feedback
4. Teach self-assessment and goal setting
5. Teach one facet at a time
6. Teach focused revision
  - Do they see purpose of revision?
7. Teach self-reflection to track growth

*(WI RtI Center, Balanced Assessment Module)*

# Things to Keep in Mind...

- Assessment methods should be aligned to achievement targets.
  - What's the purpose of the assessment?
- It's about what the student learns and not what the teacher teaches.
- Focus on assessment as learning
  - Students learning to identify quality to incorporate it into their work

# Video

## MITS Video

How does UDL change the classroom and instruction

UDL Video Series

How does UDL change the classroom and instruction?

Universal Design for Learning

>>Huge, huge difference.
